WORK EXPERIENCE

Assistant System Engineer

Tata Consultancy Services Ltd.

Jul-2018 – Ongoing Hyderabad, India

- Working as UI Developer on Web Application for BT Wholesale Portal.
- Worked as a member in Application Support for Kenan Arbor Billing System and Oracle Network Mediation(ONM).

PROJECTS

Enrich Multimedia Files using IBM Watson Services(Seminar)

Feb-2018–May-2018 Davanagere, Karnataka

To create a web UI app that includes speech-to-text conversion, tone analysis, natural language understanding, and visual recognition processing to enrich multimedia files.

Development of Visual Recognition GUI for Custom Image Classifier (Project)

Aug-2017–May-2018 Davanagere, Karnataka

To create a GUI for Visual Recognition for the input image that users interact with the application through the user interface where the test image is produced. The classification algorithm is applied to the test image to create a model which is then compared with the training model.

Recipe Book

Simple Web app for recipes built with Node.js and PostgreSQL relational database. My main task was to design CRUD operations for managing recipes like Adding a new recipe, Deleting a recipe or Modify the existing recipes and store them in the database.

User Authentication for Events Portal

A Complete Web Application for Events Portal for managing users to view a particular event depends on whether the user is authenticated. I've used Node.js for back end and Angular, Bootstrap framework for front end.
